

# Vision Insights Ideas that work!

VOL. 2, SPECIAL ISSUE FOR VGS

27.12.2021

## Education for a smarter future

Vision Group of Institutions organized a one day symposium 'Education for a Smarter Future' on 11th December 2021 at our Aligarh Campus. Shree Jitin Prasada, Technical

Education Minister, Uttar Pradesh was the Chief Guest of the program, which was attended by number of renowned Professors, educationists, entrepreneurs and industrialists. The function took up Challenges of 21st Century, Exponential Technologies of future, and Transformation required in Education of the future. Students of VGS actively participated in the exhibition, and the cultural events.

## Words of Vision: Foreword by Principal

The event turned out to be an excellent opportunity to channelise the creative potential of our students towards constructive pursuits. The talent must come into action; the concealed must find fertile soil to grow and develop. The various modes of expression prepared and presented by the students in the event brought about an awareness towards the major global challenges of the next century, along with reflection on how technology may assist to meet these challenges. The concern of the students towards global issues, along with firm grasp of technology, at this tender age was duly noted and highly appreciated by the Honourable Education Minister Shree Jitin Prasada and other dignitaries including Professors of the Aligarh Muslim University. As you sow, so you reap, Let us sow seeds of positivity, sustainable development, humanitarianism, peace and harmony! [Read full Foreword](#)

## A Step, a Leap: Function Report from Teacher's Podium

Teachers of Vision Global School had a huge responsibility of bringing out the best of talents in the students within a very short span. The task was humongous, and in fact it was a big learning curve for us teachers too. It required a dedicated team work, and the praises we won in the event proved that we had accomplished our task to a great extent. There was no hesitation, no stage fear, no reticence. Our performers let it go; bringing out their inner feelings in the performance. It was truly something worth enjoying and applauding. [Read full article](#)

## Glimpses of the future: Report from Student Desk

The Symposium *Education for a Smarter Future* organized by Vision Group of Institutions was indeed a new dawn of learning and understanding our bigger role in world for the entire Vision Global School fraternity. We got an opportunity to host an event after almost one and half years as the schools had remained partially closed due to covid

19. We surely made up for the lost time with lots of activities, knowledge, acquiring new skills, learning host of different things and having loads of fun!

## My Life, my Dreams: Observation by a Student

It came as a surprise to many that students at VGS were well aware about the new technologies. Even the Chief Guest, Honorable Minister for Education Shree Jitin Prasada spent a lot of time in VGS stalls. He asked us many questions and went through all of our models. We felt so thrilled.

The theme of the symposium was Global Challenges. Our teachers held a number of lectures and workshops where we got to know about the challenges our generation is expected to face in the coming years. We truly felt extremely happy to be entrusted with such serious responsibility, though at times it left us in awe too. I cannot even tell the learning experience we had in a short time. Suddenly we had a door opened to us where we could see, and even build the future! [Read full article](#)

## Center for Developing Child (CDC) @ VGS

The Center for Developing Child is an unique initiative of Vision Global School which is intended to be the focal point for understanding, enhancing and integrating the efforts of school children and staff in developing citizens of character. At CDC VGS we have taken up few vital Character Strengths which we will imbibe in our students. It will be our salient mission to develop these in all of our students.
